Animals 1

YOU DON'T HAVE enough paper and ink to list all the amazing things researchers have learned from animals, even in just the last century. God has given us animals for food, protection, conpanionship, clothing, and that hardly starts the list.

BUT ONLY GOD can supercede all we learn from animals by having a little bit of them feed 5000 + 4000 + families. They can carry money in their mouth just when it's needed.(Mat 17) They can provide taxi service to get a person back on the right path. (Jonah) And that's just thinking about fish. What about talking mules? And the snake that proved God's protecting hand was on Paul (Acts 28)

God has proved His designing power by placing animals in the most hostile regions of our Earth.

BUT SATAN CAN EASILY draw our attention away from our Creator and onto the objects He's created. Can you think of some of the animals that humans have begin worshipping?

Would you find it difficult to describe PEACE? The Bible uses animals to paint the picture of PEACE that you and I and those around us, long for.

The first ten verses of Isaiah 11 include this picture of peace description that includes "The wolf also shall dwell with the lamb, and the leopard shall lie down with the kid... and a little child shall lead them."

Do you seek peace; deep lasting peace that transends every stormy voyage? God's precious word, our Bible, will take you to that place and introduce you to the Heaven-sent Savior.
